

First Motivation mail to HOPE from.....

Mr. Amalraj
Director
APT International Shipping Pvt. Ltd.
Andheri (E) Mumbai - 99

Dear Mr.Amol Sainwar

The concept which you are developing is wonderful, absolutely philanthropic and ofcourse patriotic being with the benevolent thought of helping the rural India to reap the benefits of booming and globalizing economy.

We all speak about it and grumble about the rural India being continuously neglected and the down trodden continues to be down trodden .The media highlights it - as of now no one conceived any plan to help these people. Your thought is a right step in the direction of achieving and develop this concept .

I am really inspired on knowing your difficulties and the pangs of pain you had undergone in your childhood and adulthood .You have come up against all the odds because of your burning desire to come up in life .So such desire is lost amongst the many in rural India - who is going to inculcate the desire of learning and educating oneself amongst the rural masses. The HOPE should do this first by reaching out to this people - we need to have noble people with noble ideas who should have all the time at his or her disposal to work towards it .As you said , there is a dearth of resources , we need to mobilize this first . Whatever I should do in this respect , I am absolutely willing to do the same .

I am not young as you are , I am in the forties - having been a employee since July 2005 , now GOD gave me an opportunity to develop a company to known as " Apt International Shipping Private Limited - this I consider a trust and would be beneficial to all - and it will contribute it's might in whatever way you would like us to contribute .

Wish you best of luck for your huge endeavor -

Thanks , Amal Raj

Subject: HOPE - Social orgainsation by youths for Rural India

Mr. Amalraj

I request you to please spare ten minutes to go through attached report on our proposal.

Sir It is always in our mind to do something for Rural India. Sir Financial Condition of India is improving, GDP is booming up, Lot of Industrial development.

Sir but our concern more about Rural India.....there situation is not what we are looking in cities.

So Sir We as a team of some young Indians started social organisation HOPE - HELP OUR PEOPLE for EDUCATION.

Sir if you really feel that what we are doing is wirth then please motivate HOPE team.

Waiting for your positive reply

Thanks and regards
