Dear Amol

This is in continuation with the Hope doc u sent to us. Will u mind if i ask u a few questions please as below:

ADS : No mam I will never mind I am still young to learn things from People like you who started the business and growing in business.

1. Would u start with adopting of some kids.

ADS : Yes Mam If you read our report we are going to start such many programs to help rural India

2. Who will take care in case such thing happens as u r in uganda.

ADS : Mam if you see our organisation structure and member list only few people are out of India and many are in India.

As we are starting the activity from one tehsil place. Soon we going to recruit two full time Volunteer on pay role of HOPE.

If u can inform me than I would like to talk further on this. There are some funds with me which I have kept for such useful work. But it should be continuous with someone handling it as a full time affair with others like u giving support from behind

ADS : Yes Mam we assure you that whatever spend by us must be utilised for the development of rural India.
