Dear Lulla Sir / D. Singh Sir

Sir I started my carrer with CIPLA as Trainee Engineer and due course of time of 5 years I learn lot from Mr. Kulkarni and from responsibilities given by him.

and today I am working on our project QCIL Kampala uganda.

I request you to please spare ten minutes to go through attached report on our proposal.

Sir It is always in our mind to do something for Rural India. Sir Financial Condition of India is improving, GDP is booming up, Lot of Industrial development.

Sir but our concern is more about Rural India.....there situation is not what we are looking in cities.

So Sir We as a team of some young Indians started social organisation HOPE - HELP OUR PEOPLE for EDUCATION.

Sir if you really feel that what we are doing is wirth then please motivate HOPE team.

Waiting for your positive reply

Thanks and regards
